BJERRING

1

A flame-retardant fabric and polyurethane high quality foam providing adequate support for the back and ensure seating comfort for many hours.

2

The rear backrest made of the multi-layer moulded plywood.

3

Supported by polyamide bearings a folding gravity mechanism enables automatic folding through the use of appropriately selected counterweight placed inside the upholstered seat. The mechanism is fail-safe, quiet and maintenance-free.

4

The upholstered seat cushion filled with foam injected into a mould by means of injection moulding technology, which ensures high resistance to the deformation of the foam.

5

The sides of the seat in the form of two prisms made of high-grade solid wood.

6

The upholstered paddings emphasize the modern shape of the side of the seat and increase the aesthetic value.
